FROM DEDICATION TO SUCCESS – HOW TO MANAGE YOUR CAREER IN SCIENCE
THURSDAY, SEPTEMBER 29, 2016, 9.30 AM
INM, LEIBNIZ-SAAL, CAMPUS D2 5

Being a successful researcher or becoming a professor – this is the aim of many female scientists in the early stages of their career. But how can you achieve it? What steps can you take to further your own prospects? Which framework conditions are helpful or necessary? Where are the challenges you may encounter? Our symposium addresses female scientists in the STEM fields (Science, Technology, Engineering, Mathematics), particularly PhD students and postdocs. You will gain insights into career planning and self marketing, as well as legal and work-life-balance aspects. Ultimately, this symposium will help you to develop ideas on how you can successfully pursue your career.

REGISTRATION UNTIL SEPTEMBER 15, 2016 VIA E-MAIL TO: GLEICHSTELLUNG@LEIBNIZ-INM.DE

PROGRAM

9:30 Welcome
9:45 Legal regulations on fixed-term contracts in higher education and research: amendments and consequences, Ralf Lehmann, Legal Department, Saarland University
